

**Pine River Boat Club  
Update  
July 19, 2020**

I have been informed that the dredging will begin **in the early morning Monday July 20, that is tomorrow morning**. All members are advised that trying to navigate the river mouth while dredging is in progress would put yourself and the operator in danger. Please do not try to exit or enter the mouth while dredging is in operation.

The Fairway buoy or mile marker is now in place. Thanks for this installation are to Bill Johnson and the young Mr. Childerose.

The OPP have for many years been responsible for patrolling the lake. Since Covid-19 we can expect that they will be more active. They are present to help us and also to enforce the safety rules. Please take care while on the water. It is a big lake.

**Gordon Cale  
Secretary  
PRBC**
